

SILMO

Academy

THE SYMPOSIUM

7>9 OCTOBER 2017

TAKE PART, EXCHANGE IDEAS, DEBATE ISSUES...

SILMO ACADEMY has carved out a niche for itself as a forum for dialogue and information on the latest scientific developments in the vision and optics sectors, aimed at opticians and other vision specialists both in France and abroad.

In line with tradition, this symposium will take place within the framework of SILMO Paris, World Optical Fair from 6th to 9th October 2017 at the Paris Nord Villepinte Exhibition Centre.

This is an unique opportunity to have your say, a platform to share directly your thoughts, analyses and scientific studies.

The 2017 symposium is dedicated **in all aspects to the DAZZLE.**

If you would like to be a speaker at the symposium:

Send us the title of your presentation and a summary of its content **before February 27, 2017**, to the following email address: silmoacademy@silmo.fr

You can also share your research with other professionals by writing communications (as a posters for example). They will be on display throughout the exhibition. Simply send us the title of your poster **before May 28, 2017**, to the following address: silmoacademy@silmo.fr

Opticians and other vision professionals need your input to improve their professional practice on a daily basis. **Play a key role in this enhancement!**

About SILMO ACADEMY:

Inaugurated in 2010, SILMO ACADEMY arose from an observation that opticians need to develop their skills and broaden their knowledge in the fields of vision and optics in order to meet their clients' visual requirements more effectively. SILMO opted to support professionals in this strategy by creating a dedicated training body and science symposium, aimed at all professionals wishing to enhance their expertise. As a forum for improving knowledge and sharing experience in the various aspects of vision and compensation for vision loss, it is recognised under the Continuing Professional Development programme. All participants can register as part of their CPD for healthcare professionals, which became compulsory in January 2013.

Scientific Committee

Pr Christian Corbe

Pr Christophe Baudouin

Pr Bahram Bodaghi

Dr Christophe Orssaud

Mr Bernard Maitenaz

Mrs Elaine Grisdale

Mr Thibaut Pichereau

Mr Jean Paul Roosen

Mr Vincent Vennier

Mr Jacques Vigne

Scientific symposium Coordinator

Genevieve Prevost
